Subject: Online Groundwater FAQs Available

The Texas Groundwater Protection Committee (TGPC) has developed a number of one- to two-page summaries of topics related to groundwater quantity, groundwater quality, septic systems, water wells, administrative entities, and publications. These popular press articles are available to assist state-wide newsletter editors and webmasters in disseminating groundwater-related information to the public. Additional Frequently Asked Questions (FAQs) are currently under development. Please visit the TGPC's FAQs webpage at <http://www.tgpc.state.tx.us/FAQs.php> for details.

Additionally, the following link to a "one-pager" (http://www.tgpc.state.tx.us/subcommittees/POE/LinksTGPCmaps_brochures22Apr2013.pdf) has all of the URLs for all of the maps and fact sheets that TGPC hands out from our exhibit booth – many teachers and parents like to know where they can view and print these items for themselves for free, and this handout includes the TCEQ and AgriLife Extension contact information if they want to order hard copies.
